The *Friends of Salud Carbajal Campaign* welcomed benefactors and the local incumbent candidate for County Supervisor, in a gathering to support his re-election.

"I am very encouraged by the cross-section and number of individuals that attended the event on the 7th," Carbajal shared. "It re-affirms the things we've tried to do... People are satisfied with our services - we have been good listeners and accessible. One of the hallmarks of our service is that we've brought people together

of different groups to find common ground and solutions to issues that have had tension associated with them... Our success at finding common ground has been well received... I'm ecstatic about the broad extensive support for our services and for the election campaign."
